Catalogue of the Vascular Plants of New York State
Volume 27 of the Memoirs of the Torrey Botanical Society
by David Werier 2017

Errata:

P. 32: Move the **Botrychium neolunaria** entry ahead three places so it is in alphabetical order.

P. 83: Under the **Eleocharis engelmannii** entry change the synonym *Eleocharis engelmannii* var. *detonsa* A. Gray to *Eleocharis engelmannii* Steud. var. *detonsa* A. Gray

P. 116: Under the entry **Sporobolus michauxianus × S. pumilus = S. ×eatonianus** P.M. Peterson & Saarela remove the synonym *Sporobolus michauxianus* (Hitchc.) P.M. Peterson & Saarela × *S. pumilus* (Roth) P.M. Peterson & Saarela = *S. ×eatonianus* P.M. Peterson & Saarela as this is the accepted name.

P. 148: Reverse the order of the species in the hybrid **Amelanchier amabilis × A. alnifolia** (i.e., change to **Amelanchier alnifolia × A. amabilis**) and then move this entry back one place so it is in alphabetical order.

P. 148: Change **Amelanchier bartramiana × A. laevis** to **Amelanchier bartramiana × A. laevis = A. ×neglecta** Eggl. ex K.R. Cushman, M.B. Burgess, E.T. Doucette & C.S. Campb. And remove *Amelanchier neglecta* Eggl. ex K.R. Cushman, M.B. Burgess, E.T. Doucette & C.S. Campb. from the synonym list.

P. 154: Change **Geum canadense × G. urbanum = G. ×catlingii** to **Geum canadense × G. urbanum = G. ×catlingii** J.-P. Bernard & R. Gauthier

P. 218: Under the entry **Persicaria amphibia ssp. laevimarginata** change the synonym *P. coccineum* Muhl. var. *rigidulum* (E. Sheld.) Stanford to *P. coccineum* Muhl. ex Willd. var. *rigidulum* (E. Sheld.) Stanford

P. 218: Under the entry **Persicaria coccinea** change the synonym *P. coccineum* Muhl. to *P. coccineum* Muhl. ex Willd.

P. 417 column 1: In the abbreviated excluded list under the genus *Botrychium* add var. *lunaria* after *B. lunaria*

P. 419 column 2: In the abbreviated excluded list under the genus *Rosa* remove = *R. ×atlantica* after *R. blanda × R. micrantha* and add it after the next entry, which is *R. carolina × R. palustris*

P. 419 column 2: In the abbreviated excluded list under the genus *Rosa* add = *R. ×hodgdonii* after *R. nitida × R. virginiana*

P. 433: In the expected list remove the entry **Rosa carolina** L. × **R. virginiana** Mill. **= R. ×novae-angliae** W.H. Lewis entry as this taxon is in the accepted list.

P. 438 column 2: In the abbreviated expected list remove the entry Rosa carolina × *R. virginiana* = *R. ×novae-angliae* entry as this taxon is in the accepted list.

P. 472 column 2: Under the genus **Ampelopsis** remove the italicized and nonbolded
        cordata, 133

P. 474 column 3: Add *var. litoreus*, 293 in the place shown below
        novi-belgii, 291-293, 404
          var. crenifolius, 404
          var. elodes, 292
          var. laevigatus, 292
          var. litoreus, 293
          var. tardiflorus, 291

P. 475 column 1: Remove the two lines:
        Aster
          var. litoreus, 293

P. 510 column 1: reverse the order of *var. citrata*, 248 and **×piperata,** 248. That is change

   var. citrata, 248   to **×piperata,** 248
  ×piperata, 248   *var. citrata, 248*

P. 523 column 1: Under the genus **Rosa** and then under the specific epithet **carolina** remove the italicized and nonbolded

   × *virginiana*, 159. 433, 438

P. 523 column 2: Under the genus **Rosa** remove the italicized and nonbolded

   × *novae-angliae*, 159. 433, 438

P. 531 column 2: Add *×caespitosa*, 116 in the place shown below

   Spartina
    alterniflora, 116
     var. glabra, 116
     var. pilosa, 116
     ×caespitosa, 116
    cynosuroides, 116

P. 531 column 2: Remove the three bolded lines:

    Spartina
     ×caespitosa, 116
      × pectinata, 116

P. 532 column 1: Under the genus **Sporobolus** remove the italicized and nonbolded

   ×eatonianus, 116
